## EXPERIENCE

### QA ENGINEER Techdome Solutions Pvt Ltd

APR 2023- MAR 2024

- Executed manual and automated test scripts for web and mobile applications, identifying critical bugs that led to a 15% improvement in product stability.
- Participated in QA scrum team meetings to discuss testing strategies and share insights.
- Automated 75+ manual test cases using Selenium and Playwright, reducing hours of repetitive testing time per sprint and enabling daily regression runs
- Identified and resolved 50+ high-priority bugs before production release by creating detailed test cases and conducting thorough API, performance, and security testing across 3 major product versions.
- Initiated a process improvement project that streamlined bug reporting, reducing resolution time and enhancing communication between QA and development teams.
- Led a cross-functional team to implement automated testing frameworks, reducing manual testing time by 40% and increasing test coverage by 30% using Selenium and Java.
